## GOSPEL LIGHT CHRISTIAN CHURCH

*LEADING GENERATIONS INTO A LIFE-CHANGING RELATIONSHIP WITH JESUS CHRIST*

26 OCTOBER 2014

### GOSPEL LIGHT COMMS TEAM: HOW DO WE RELATE TO PUNGGOL?

As we eagerly anticipate the reality of our move to Punggol, the season has come for us as a church to prepare for the harvest which the Lord has prepared for us. In particular, communications is an area that a team of us has been working on - a journey which we hope the church can come along with.

Effective communications, in our opinion, involves bridging the pulse of the Church to the culture outside of Church, helping our generation to take their next steps toward Christ. It is, therefore, imperative that in our communications we remain relevant to the people we want to reach today. At Gospel Light Christian Church, our vision is to be "An Acts church for TODAY". The word "today" speaks of relevance of the church to the world we live in. Thus, relevance has to be at the centre of our communications endeavour.

To be relevant, one of the things we have to understand is perhaps that our generation today thinks more with their hearts than with their heads as they struggle with the information clutter of the digital age. If we want people to think and consider Christ, we have to first engage their feelings in our communications. By the grace of God, once we get to their hearts and they begin to consider Christ, we can then mentor them on what the church community is, and most importantly what it means to be a disciple of Christ.

Communications is powerful and is critical to our mission of discipleship. To that end, the role of church communications has been evolving over the years. Today it is no longer about simply inserting announcements into a church bulletin template. Church communications now involves a lot more strategies and planning around many more communications channels. If the church can harness the power of effective communications, we would be in a position for God to use us in amplifying His redemptive story. As we transition to Punggol, my challenge for the church is to join us in considering how we can more effectively communicate the gospel of our Lord Jesus Christ to our generation.

In Christ,  
Eric Khaw, for the Gospel Light Comms Team.
