

GENESIS

THE CORRUPTION OF MAN

Genesis 4:16–17

Then Cain went away from the presence of the LORD and settled in the land of Nod, east of Eden.

Cain knew his wife, and she conceived and bore Enoch. When he built a city, he called the name of the city after the name of his son, Enoch.

Genesis 4:18–19

To Enoch was born Irad, and Irad fathered Mehujael, and Mehujael fathered Methushael, and Methushael fathered Lamech.

And Lamech took two wives. The name of the one was Adah, and the name of the other Zillah.

Genesis 4:20–21

Adah bore Jabal; he was the father of those who dwell in tents and have livestock.

His brother's name was Jubal; he was the father of all those who play the lyre and pipe.

Genesis 4:22

Zillah also bore Tubal-cain; he was the forger of all instruments of bronze and iron. The sister of Tubal-cain was Naamah.

Genesis 4:23–24

Lamech said to his wives:

“Adah and Zillah, hear my voice;
you wives of Lamech, listen to what I say:
I have killed a man for wounding me,
a young man for striking me.
If Cain’s revenge is sevenfold,
then Lamech’s is seventy-sevenfold.”

A young child with long hair, wearing a blue long-sleeved shirt and dark pants, is sitting on a dark blue couch. The child is holding an open book and appears to be reading. The room is dimly lit, with light coming from a window in the background. The window has light-colored curtains with a subtle pattern. A dark jacket is hanging on a rack to the right of the window. The overall atmosphere is quiet and focused.

1,026 of his descendants
were studied:
300 died prematurely.
100 were sent to the
penitentiary for an average of
13 years each.
190 were public prostitutes.
There were 100 drunkards.

His 729 descendants were studied. Of this number came 300 preachers, 65 college professors, 13 university presidents, 60 authors of good books, 3 United States congressmen, and one vice president of the United States; and barring one grandson who married a questionable character, the family has not cost the state a single dollar.

These contrasting legacies provide an example of what some call the five-generation rule.
